Magic Cough Syrup IS the only reliable remedy for the rapid and per manent cure of Coughs, Colds, Influenza, Bronchitis, Hooping-cough, Croup, Sore Throat, Bleeding Lungs and all diseases of the Throat, Lungs and Chest. This remedy is safe, reliable, and the only one that has proved itself a universal remedy for all the above diseases. The testimonials published are from our most distinguished citizens here at home, who have been cured by its magic power.

Important Testimony. From Hon. J. W. Chapman, Judge of First Judicial District, Indiana.

District, Indiana.

Madden, ind., 1858.

Dr. Gro. W. Phillips, Cincinnati, Ohio:—Having used several small bottles of your "Cough Syrup, personally and in my family, and having seen its effects on others, in numerous instances of severe cold and coughs, I most cheerfully recommend it as an infallible remedy in all such cases. If this Syrup were in general use, I confidently believe a large majority of the colds, accompanied by coughs, that now terminate in Consumption, would be effectually arrested. In fact, I can see no necessity for any, who can obta no this remedy, being thus afflicted.

Respectfully yours,

J. W. CHAPMAN.

THE PRESS.

A PROPRESY MAPPED .- No one but a French man, says a cotemporary, would have thought of caricaturing Europe by a map; but a Parisian map-maker has lately published and offered for sale a map bearing the title of "Europe in the Year 1860," with a cross bearing the motto, "In hoc signo vinces"—in this sign you shall conquer. The idea is a division of the Territory of Europe in the most extraordinary manner. The old boundaries are almost lost in the Inbyrinth of lines and new complications. According to this map, the Island of Cyprus, near the Syrian Coast, and the region of the Eu-phrates, affording the shortest road to India, is to become English territory. France remains in its old limits; Russia gets Gallacia; Prussia

gives its territory on the left border of the Rhine to Holland, and is indemnified by Hanover, Mecklenburgh, Brunswick, the Electorate of Hesse, and some small German Principali ties; Austria is to receive Egypt, Servia and Ionia, but gives Gallacia to Russia, and its Italian possession to Victor Emmanuel, King of Sardinia, who, under the title of King of Italy, shall rule over all Northern Italy and the possessions of the Pope. The latter one receives the Provinces of the Abrussi of Naples; the Island of Sicily is to indemnify the Duke of Parma, and the King of Naples to become the ruler of Tunis. Sweden is to receive Denmark; the King of Hanover shall be made King of Constantinople; the Grand Duke of Meck-lenburgh, King of the Danubian Principalities. Spain gets Morocco, and the Sultan of Turkey must renounce his European possessions and

go back to his Asiatic provinces. PEDESTRIAN SMITH .- About the 1st of this month the Wheeling Times had a paragraph announcing the arrival in that city of an old man named John Smith, who had walked (so he said) all the way from Cincinnati, where his wife had died, leaving him in possession of a child, which he had hauled all that distance in a willow basket wagon. He stated that he was en oute for New York city, where he had a brother residing. The paragraph enlisted the sympa-thies of some of the good people of Wheeling, who generously gave him temporary relief, and then had him passed over the Pennsylvania Railroad. A few days after, the old man was heard from—the Baltimore papers having pub-lished an affecting account of the arrival in that city of a man forty years of age, who forthwith applied at the guard-house for shelter for himself and his child, a girl three years old. In this instance the localities are changed, while the soul-stirring tale is the same. On this occasion he said his wife died in New York, and his brother was living in St. Louis, adding, that as he had walked all the way from New York to Baltimore, dragging his child in the little wagon, so he hoped to be able to accomplish the journey to St. Louis in like man-

A POPULAR LADIES' MAN .- The gay Lothario, Meyers, the bigamist—the wrecker of sev-eral ladies' happiness—arrived in Pittaburg on Wednesday morning. His arrival caused quite a sensation among the German ladies, and his levee in the watch-house, during the day, was well attended. Though deburred from shaking hands, by the want of space, yet he stood the scrutiny and gaze of the fair ones ad-mirably, who nearly all declared he was a goodlooking fellow. But his Pittsburg wife came at last, and delivered him an eloquent and highly pepperish lecture, which affected him to tears. He was committed on charge of bigamy and larceny. Another account says he was visited that day by about one hundred German ladies, who seemed to regard him as a physical wonder and an object of admiration. As the hero of five living wives, he was regarded with

intense curiosity. WATER FROM LIBERIA.—The purity of the water of Liberia is mentioned by several writers who have been there, and by Dr. James Hall, of Baltimore, the founder and superintendent of the settlement at Cape Palmas, for several years, who says in his late address, "no one can suffer for want of good water in Liberia."

The U. S. frigate Niagara, lately returned from Monrovia, and now at the Brooklyn Navy Yard, has water on board which was brought from Monrovia. It is perfectly sweet and pure,

from Monrovia. It is perfectly sweet and pure, and as pleasant to drink as our own Croton wasent her boats and obtained it in Mesurado River, a small river behind Monrovia .- N. Y. Jour. of Commerce.

RAT SKIN CLOTHING .- An ingenious indivi-MAT SKIN CLOTHING.—An ingenious indivi-dual, of Liskeard, Cornwall, England, has for some time past been exhibiting himself in a dress composed from top to toe of rat skins, which he has been collecting for three years and a half. The dress was made entirely by himself; it consists of hat, handkerchief, coat, maiscoat, trowsers, tippet, gaiters and shoes. The number of rats that were required to com-plete the suit was six hundred and seventy. and the individual, when thus dressed, appears exactly like one of the Esquimaux, described in the travels of Parry and Ross. The tippet, or boa, is composed of the pieces of skin immediately around the tails of the rats, and is a very curious part of the dress, containing about six hundred tails-and those none of the short-

BUSINESS IN THE NEW ENGLAND STATES .-The New York Times says a gentleman con-nected with one of the leading Coal Companies has returned from a tour of business and ob-servation through the New England States. He reports the manufacturing establishments all alive again, and most of them, in many cases, running full time, on orders in advance of production. The same information is convoyed through other channels, and the general prosperity of the mills and factories of Connecticut, Rhode Island and Massachusetts, is confirmed by the improved local traffic upon their railways, and by the continual heavy purchase of cotton in New York market, and contracts in advance for wool at the West.

GOING NORTHWARD .- Last week, says the Davenport Gazette of Monday, we noticed many flocks of geese and ducks flying North, and a few flocks of wild pigeons. This is a pretty sure indication, if the birds are meteorologically inclined to prophesy, that we are not going to have any more cold worth growing ill-humored over.

ill-humored over.

It was only a few days since we copied from a Wisconsin paper a paragraph, stating that the pigeons were passing Southward, which, according to the opinion of the "oldest inhab-itant," indicated approaching cold weather.

Almost a Tragerry.—It has been going the round of the press (though we fancy the story is the concoction of some witless fellow), that a married couple, residing in Peoria County, Illinois, recently became "religiously" deranged at the same time, and that, in their ranged at the same time, and that, in their frenzy, they resolved to sacrifice one of their children, and were actually making preparations to that end, when they were detected and, of course, prevented, by their neighbors. It is said that the unfortunate couple are now in an insane hospital. That portion of the story rather dublous, is the sacrifice part.

MINNESOTA BANKING .- On Tuesday of last reck, as we learn from the St. Paul Times, the Minneapolis and Cedar Valley Railroad Com-pany concluded an arrangement with the Au-ditor of State, whereby the bonds of that com-pany are to be received for banking purposes

If this be true, we have only to advise sgainst giving currency to the issues of Minnesota Banks. No currency based upon such securities as bonds of the proposed railways in that region will be very reliable.—Toledo C., C. & C. R. R .- The earnings of this road

for January are as follows: For freights, \$43,346 89; for passengers, mail and express, \$22,338 67; rents, \$6,192 86. Total for January, \$72,923 42. Earnings for February and March, \$68,138 49. A London correspondent of the Anti-Slavery Standard denies that Mr. Dallas shook hands with the black Haytian Minister at the open-ing of Parliament as has been reported. Did anybody believe that that splendid head of hair had so forgotten itself?

SOME SENSE.-A gentleman, of high social consideration in Genoa, lately made the discovery that his wife was unfaithful to him. Waiting his opportunity, he found the guilty pair together, and politely showed them the way to the street-door, which he closed after them. He then sent a servant for an undertaker, ordered the arrangements for a functal dered the arrangements for a funeral, sent out cards of invitation to his friends, and over the empty coffin performed the ceremony for a de-parted wife. This over, he delivered the light burden to the hearse, and once more address-ing his friends, called for their congratulations upor. 'he fact that he was now a widower-upon which, opening the folding doors, he in-troduced them to a splendidly prepared feast. The gayeties which thus introduced his happy return to "single life" were prolonged till morn-

SUICIDE IN BOSTON .- On Monday morning of man named J. N. Russell, a cooper by occupa-tion, committed suicide in his own house, in Boston, by shooting himself through the heart with a dueling pistol. From all the circumstances which have transpired, it is evident that the net was one deliberately premeditated. Upon an examination of the papers taken from the person of the deceased, Coroner Smith found was the blank margin of a core of the Heraid upon the blank margin of a copy of the Herald the following words, written in lead pencil: 'Dearest Will Bid you farwell for aver Poyson myself So as to fre you."

Upon the reverse side the following words were written: "from a Bad man as you Cal Me i fre you from all Blame in this Ackt. Goodby J. N.

Among a variety of papers in his pockets was a noticeable newspaper extract, which had been cut out and preserved by him, upon the subject of scolding wives. From all the circumstances which have thus far been elicited concerning the cause of the rash act, stands out in bold re-lief the fact that his "better half" was very much inclined to render her husband's fife an unpleasant one, from a fretful and scolding

LAWLESS JUSTICE AND LICENTIOUS REVENUE. Last week the people of Oshkosh, Wisconsin, abated a nuisance in that city by burning two houses of ill-fame to the ground, and lodging the boarders-twelve girls-in jail. After a A few days after a convention of that sort of cattle, from Fond du Lac, Berrin, Ripon, Beaver Dam, Portage, Stevens' Point and Wampun, met in council in Oshkosh, with their fellowlaborers, and threatened revenge by burning down the city. So fearful are the Oshkosh people that the city will be fired, that they have now eight watchmen to protect their

Porter & Hoag's Art Gallery, Fourth STREET, OPPOSITE THE POST-OFFICE .- This gallery and repertory of Photographic art is acknowledged by all who have had an opportunity of comparing it with other establishments, to be the most extensive and complete in the Western country.

The "reception room" is unquestionably a plendid apartment. It is a large and handsome room, on the second floor, with walls most exquisitely frescoed, and adorned with a very large collection of elegantly-executed portraits of the most distinguished personages of this country, male and female.

This department of the institution is under the superintendence of Mrs. Hoag-an amiable and intelligent lady, who will be happy to contribute all within her power to the pleasure of her visitors. The Melainotype department is under the

We have no space at our disposal, or we should refer to the various operations carried on in this institute in detail; but we must say that the artists employed are the best the country can produce, and the work here executed is sure, always, to give the most complete satisfaction. LUNG AND THROAT INSTITUTE, No. 30 WEST FOURTH STREET.

DR. AYER'S

The following letter is from one of our well known merchants. Whatever he inforces must be of sterling value. It is well worth reading: merchants. Whatever he indorses must be of sterling value. It is well worth reading:

CINCINNATI, February 13, 1859.

About a month ago I called at Dr. Ayer's "Throat and Lung Institute." 30 West Fourth street, for treatment for Tonsilitis and Chronic Inflammation of the Throat. The tonsils and uvula (or palate) were so much enlarges! that there seemed to be but one course to pursue, and that was to cuit them off; this I had been told by other physicians, who had also candidly told me they could not cure me. Dr. Ayer made a careful examination and pronounced excision unnecessary, and prescribed Medicated Inhalation and topical applications, with general treatment, and the result is a frankey tariumra! The inflammation has been allayed, and the tonsils and palate reduced to their natural size and position. I now have no soreness or difficulty whatever of the throat, and TELL THAY I AM NOW FERFECTLY WELL.

I confidence. His nucle of treatment is rational, pleasant, and certainly in my case successful, and I have every reason to believe the Doctor is equally successful in all other cases while I have been under treatment at the Institute.
